

One organ donor  
can save up to **8** lives.  
Be the power of one.

## WHAT YOUR DONATION SUPPORTS

- **Registration** of organ and tissue donors.
- **Interactive Learning** with our Liberty Science Center's organ and tissue donation exhibit, and our live from surgery program connecting people with our partner physicians during a live donor kidney transplant.
- **Public outreach** in high schools like Blake's, colleges, and communities.
- **Donor family support** providing ways to honor loved ones, such as our wall of remembrance, quilts of love, stone dedication, or 5K celebration.

## ABOUT COMMUNITY HEALTH CHARITIES

Community Health Charities is a nonprofit that raises awareness and resources for health and wellness by connecting more than 2,000 of the most trusted health charities across the United States with more than 17 million caring employees through workplace giving campaigns, causes, wellness programs, employee engagement, and strategic partnerships. Health has never been such an urgent priority: 77% of U.S. workers suffer from at least one long-term health condition, ranging from cancer to asthma — chances are someone you know is affected.

### Daughter of a Heart Recipient

NJ Sharing Network

*"His heart is here! Wake up!"*

*Blake will never forget waking up to these words when her father received the call that would save his life and change the course of hers forever. Blake felt helpless when her father was on the waiting list, but after his successful transplant, she found a calling in spreading the word about organ and tissue donation.*

*Blake became a NJ Sharing Network Ambassador at 13, and continues to share her story. She founded the Donate Life club at her high school, leads a 5k Celebration team, and plans to continue her efforts in college. "I am inspired by my Dad's story, the honorable donors, and the students who have told me they changed their license to reflect 'organ donor.'"*
