

Sunshine Foundation answers the dreams of chronically ill, seriously ill, physical challenged and abused children thanks to donations from very generous donors. One such children, Luis from New Jersey, has arthrogryposis, which makes it difficult or impossible for his joints to move. Thanks to wonderful donors Luis was able to relax and feel weightless in the pool at the Sunshine Foundation Dream Village. Not only do Sunshine Dreamers go to the Dream Village, but Sunshine Foundation provides airfare, theme park tickets, a rental car, and spending money so the family can relax and not worry about a thing while on their dream trip. Kianna, 7 has surfactant c deficiency a lung disease which is why she uses a tracheostomy. When asked about Kianna's dream mom said "Dreams do come True!" Thank you for your help with making Dreams Come True.
